Kale Shared Higher Expressed Genes

					Apressed Genes			
fatty acid derivative metabolic process	isoprenoid biosynthetic process	small molecule metabolic process	lipid metabolic process	gly	cosinolate catabolic process	carbohydrate derivative catabolic process	nitrile biosynthetic process	
	fatty acid derivative metabolism secondary metabolic process	m		L				
			carbon fixation		carbohydrate derivative catabolism		nitrile metabolism	
		lipid		culf	sulfur compound catabolic proce	S-glycoside ress metabolic process		
fatty acid derivative biosynthetic process	organic acid metabolic process	biosynthetic process		Suii	rdi compound catabolic proc			
							nitrile metabolic process	
response to herbivore	response to other organism	response to	response to stress		olysaccharide catabolic proce	glycosyl compound catabolic process		
		biotic stimulus					negative regulation	
	response to herbivore							
	cellular response to iron ion starvation	response to phenylpropanoid			photosynthesis pla	astid organization response	o stimulus of ion transport cell killing
